  - Next.js, Vue.js
  - HTML, CSS, JavaScript
  - Tailwind CSS, Bootstrap
- Database:
  - MySQL, PostgreSQL
  - Database Design & Query Optimization
- Tools & Others:
  - Git, GitHub, Postman
  - Docker, Docker Compose
  - Teamwork, Self-learning, Problem Solving

PROFILE

Junior Fullstack Developer with 1+ years of experience building web applications using PHP, Laravel, and Next.js. Experienced in RESTful APIs, backend development, and MySQL/PostgreSQL. Passionate about clean code and continuously improving as a Backend Engineer.

WORK EXPERIENCE

FPT Telecom - Web Developer — 01/2025 – 12/2025

- Developed internal web applications using Laravel, PHP, MySQL, improving business workflows and data management.
- Designed and integrated RESTful APIs for internal systems and third-party services.
- Optimized database performance, fixed bugs, and maintained production applications.
- Collaborated with cross-functional teams using Git and Agile development practices.

BIN Corporation Group – Fullstack Developer — 01/2026 – Present

- Developed and maintained enterprise web applications using PHP (Laravel, Phalcon), FilamentPHP, Next.js, React, Vue.js, Tailwind CSS, and Python.
- Designed and implemented RESTful APIs, integrated payment gateways, authentication, and third-party services.
- Developed and customized ERP modules, admin dashboards, and internal management systems using FilamentPHP.
- Optimized MySQL and PostgreSQL databases, improved query performance, and resolved production issues.
- Built, deployed, and maintained applications using Docker, Git, and Linux server environments, collaborating with Business Analysts and QA teams throughout the development lifecycle.

PROJECT

Fashion E-Commerce Website (Fullstack)

- Tech: Laravel, Next.js, MySQL, FilamentPHP, RESTful API
- Developed a fullstack e-commerce platform with customer storefront and admin management system.
- Designed and implemented RESTful APIs for product, order, user, and content management.
- Built an admin dashboard using FilamentPHP to manage products, categories, orders, and website content.
